HIVEQR
Quick Response Software

Hive Quick Response Software streamlines service requests down to a science with our 'first-call-fix' technology that increases your customer uptime while reducing non-value added tasks. Enabling rapid service and high customer satisfaction comes from an innovative new approach that utilizes the latest in digital imaging, geo-tagging, auto-messaging, DMS integration, QR encryption and much more. Leverage the power of Hive today for reduced work-in-progress (WIP) and increased customer loyalty.
